

TargetRules

```
classDiagram
    class TargetRules {
    }
    class ScarletTarget {
        +ScarletTarget()
    }
    ScarletTarget --|> TargetRules
```

The diagram illustrates a class hierarchy. At the top is the 'TargetRules' class, represented by a white box with a gray border and two empty internal compartments. Below it is the 'ScarletTarget' class, represented by a gray box with a gray border and two internal compartments. The top compartment of 'ScarletTarget' contains the text 'ScarletTarget', and the bottom compartment contains '+ ScarletTarget()'. A blue arrow with a hollow triangular head points from the top of the 'ScarletTarget' box to the bottom of the 'TargetRules' box, indicating that 'ScarletTarget' inherits from 'TargetRules'.
